Order of Business

1. Jackson Adams – Re: Carp at Lake Jimmy Jackson

Jackson Adams, a 16-year-old who is part of the Callaway High School Fishing Team, addressed Council with concerns about grass carp at Lake Jimmy Jackson. After extensive research, Jackson found that the grass carp have grown up to 30-40 lbs. and are negatively impacting native fish populations at the lake. His proposal is he would like to have approval for the fishing team to remove the grass carp by bow hunting. His father said he would sign a liability waiver and an adult would be with the kids at all times while they are removing the grass carp. DNR confirmed that no permit is needed. Jackson said he would keep a diary of removal activities with dates and numbers and DNR would be informed of the information. Council members agree that they would like signed liability waivers in place for each student participating and an adult present. This item is on the Regular Meeting agenda for Council action tonight.

2. Pickleball Netting & Striping Quote

Currently, the two tennis courts at the elementary school use movable pickleball nets on wheeled frames, creating four courts; these nets are subject to wear, damage, and occasional vandalism. Consideration is being given to converting one side of a tennis court to permanent pickleball netting. Cost estimates: Permanent netting installation (\$4,800) and court re-striping (\$6,000), totaling approximately \$10,800 if both are done. Alternative: Replace existing nets with heavier duty ones for about \$2,000. Further evaluation is needed on warranty, durability of permanent nets, and impact on tennis court usage, so Council agreed to table this item at the Regular Meeting tonight.

3. GDOT Interstate Lighting Agreement

GDOT proposes a lighting agreement alongside upcoming roundabout construction, including 10 poles (30 feet high) with two lights each (20 lights total) within the bridge/roundabout area. Clarification is needed on pole dimensions, light specifications, and exact placement relative to the roundabout. The project aligns with the roundabout construction timeline and does not affect general interstate lighting. Future plans for interstate widening and additional lighting are mentioned but not finalized.

4. LMIG-LRA Funding Project Ideas

LMIG/LRA funding of about \$67,578 is available, with no match requirement this year. Potential uses: Accelerate Holmes Street improvements (sidewalks, curbing, paving) otherwise scheduled for 2026, or supplement smaller road patching projects to reduce the city's matching funds burden. A TAP grant has been secured for extending sidewalks along key corridors (from West Boyd Rd to West Main St and beyond), with design and construction phases outlined and timing coordinated with other infrastructure projects. Coordination among projects is needed to ensure immediate and long-term roadway and pedestrian improvements. Council also discussed possibly using the funding for smaller roadway patching around the City. This item will be placed on the next Work Session agenda on May 4 for more discussion.

5. AMR Agreement

AMR is asking the City to allow them to use the space in the basement of the Police Department for emergency vehicle staging. AMR is asking in the agreement to lease the space rent free. The city's priority is reducing ambulance response times. Further negotiation is needed regarding city benefits, emphasizing that "free" space is only valuable if it improves emergency service performance. Council agreed that they would like to ask AMR for \$2,500/mo. for the space, including all utilities if they can guarantee 60% ambulance presence to improve emergency response.

6. Hogan Cemetery

The Hogan Cemetery at Maple's corner is on the National Register and maintained by local descendants but faces issues like fallen trees and overgrown vegetation. The city lacks legal authority to maintain the cemetery, as it is privately owned or designated under an antiquated title. Suggestion: Encourage a community-driven Adopt-a-Cemetery program to support maintenance rather than assuming municipal responsibility.

Discussions not on Agenda:

Street Renaming

A formal application has been received by Mr. George Bailey to rename the street entering Huntcliff Subdivision, invoking council policy. Considerations include the current name's historical significance, subdivision identity alignment, and the need to consult the HOA before changes. The issue will be discussed further at the next work session; no final decision is expected at this meeting.

DDA Board Appointments

DDA board appointments are also on the agenda, with plans to gather further input before decisions.

Mayor Pro-Tem Neese adjourned the Work Session at 6:58pm.

Respectfully,

LeAnn Lehigh
City Clerk

- (2) A maintenance bond or other surety shall be furnished which shall name the city as a principal equally with the owner and shall be worded to include in its coverage a one-year maintenance warranty period following acceptance of the improvements by the city.
- (3) The arrangement, character, extent, width, grade and location of all streets shall conform to the comprehensive plan. New streets shall be considered in their relation to existing and planned streets, topographic conditions, public convenience and safety, and in their appropriate relation to the proposed uses of the land to be served by such streets.
- (4) When such is not shown in the comprehensive plan, the arrangement of streets in a subdivision shall:
 - (a) Extend existing streets or their projections at the same or greater width, but in no case less than the minimum required width, unless variations are deemed necessary by the zoning administrator for reasons of topography or design;
 - (b) Connect to existing streets if required by the city to create connectivity and traffic circulation; and
 - (c) Provide traffic management features for traffic calming if required at the discretion of the zoning administrator.
- (5) Where a subdivision abuts or contains an existing or proposed through street with a speed limit greater than thirty (30) mph, access shall be limited to ensure adequate protection of residential properties and maintain public safety. The following measures may be required by the zoning administrator:
 - (a) Deceleration stacking lane with taper.
 - (b) Acceleration lane with taper.
 - (c) Left turn stacking lanes with tapers.

- (d) Reverse frontage lots with screen planting strip along the rear property line or such other treatment as may be required to afford adequate separation from through street.
 - (e) The Georgia Department of Transportation Driveway Manual "Regulations for Driveway and Encroachment Control" shall be used as a design guide.
 - (f) A subdivision plat involving new or existing streets crossing railroad tracks shall provide adequate right-of-way, including approach right-of-way and slope easements for construction of underpass or overpass unless otherwise determined by the zoning administrator.
- (6) Privately owned reserve strips controlling access to streets shall be prohibited.
 - (7) Street jogs with centerline offsets of less than one hundred twenty-five (125) feet shall be prohibited.
 - (8) Street intersections should be as nearly at right angles as practical.
 - (9) Street right-of-way width and curb and gutter requirements shall be provided as regulated in the Street Thoroughfares Table of Sec. 102-C-9-52.
 - (10) Curb and gutter shall be required on all streets and shall be furnished and installed by the subdivider or his agent in conformance with the latest thoroughfare design standards. Distance from back of curb to back of curb must not be less than twenty-six (26) feet.

Base and paving. Minimum road width of twenty-six (26) feet from back of curb to back of curb shall be furnished and paid for by the subdivider or their agent. Installation shall conform to the Street Thoroughfares Table of Sec. 102-C-9-52. The minimum acceptable paving cross section, unless otherwise modified by the zoning administrator for proposed city streets shall be:

- (a) One and one-half (1.5) inch, twelve and one-half (12.5) mm asphalt wearing course. (Two (2) inch, nine and one-half (9.5) mm wearing course optional with approval of the zoning administrator.)
 - (b) Three (3) inch, nineteen (19) mm binder.
 - (c) Eight (8) inch G.A.B. (graded aggregate base) compacted to one hundred (100) percent. STD density per ASTM D698. The asphalt-wearing course must be laid before a period of one (1) year after the streets have passed final inspection and the final plat has been recorded.
- (11) Testing thickness and compaction. The zoning administrator or their designee shall make as many tests as necessary to determine the average thickness and compaction of the base course prior to placing of surface course. Tests shall also be made on the finished courses if necessary. When the subdivider or their agent or contractor disagrees with the administrator's tests and prefers a consulting firm to be employed, said consulting firm shall be employed at the subdivider or their agent's expense.

- (a) *Compaction.* Fill shall be placed in uniform, horizontal layers not more than six (6) inches thick (loose measurement). Moisture content shall be adjusted as necessary to compact material to ninety-eight (98) percent maximum laboratory dry density as determined by ASTM D698.
 - (b) *Utility installation.* After the earthwork has been completed, all storm drainage, water, and sanitary sewer utilities have been installed within the right-of-way as appropriate, and the backfill in all such ditches thoroughly compacted, the sub-grade shall be brought to the lines, grades, and typical roadway section shown on the approved plans.
 - (c) *Compaction testing.* Utility trenches cut in the sub-grade shall be backfilled as specified herein. Compaction tests at the rate of one (1) per one hundred fifty (150) feet of trench may be required to verify compaction.
 - (d) *Proof-roll.* Test 1 Sub-grade must pass roll testing with a fully loaded tandem axle dump truck prior to placement of the base material. With the approval of the zoning administrator, a geo-textile or grid may be used to stabilize a sub-grade that does not pass proof rolling.

This material shall not be used as a part of the base material. It may be worked into the sub-grade, or it shall be removed before the base course is set up for paving.
 - (h) *Temporary drainage.* Provisions shall be made to drain low points in the road construction when the final paving is delayed. After installation, drainage under the curb to side slopes is required, using minimum four (4) inch diameter pipe sections.
- (12) Manhole covers and valve boxes projecting above the intermediate course shall have temporary ramps of cold mix asphalt placed at a five (5) foot radius. Prior to application of the surface course, the cold mix asphalt shall be removed. The elevation of the top-of-structure shall be inspected by the director of public services or his designee and any needed adjustment to match the final pavement elevation shall be made. COUNCIL ACTION FORM

MEETING DATE: April 21, 2025 **SUBMITTED BY:** Dhayna Portillo

AGENDA TITLE: Public Hearing and First Reading – Annexation, Rezoning and Map Amendment for Chisel Mill Development

CLASSIFICATION (City Attorney must approve all ordinances, resolutions, and contracts as to form)

☐ Ordinance (No. ____) ☐ Contract ☐ Information Only ☐ Public Hearing

☐ Resolution (No. ____) ☐ Ceremonial ☒ Discussion/Action ☐ Other

BACKGROUND (Includes description, background, and justification)

Property owners and applicants Chisel Mill Design & Build, LLC, Wesley and Shannon Shelton, and Quinton Dean are requesting the annexation and rezoning of five parcels totaling approximately 21.17 acres, located on Bass Cross Road (Tax Map Nos. 0200000048G, 0200000048F, 0200000048E, 0200000048D, and 0200000048C). The properties are currently within Troup County and are zoned Single-Family Medium Density under the Troup County Zoning.

The applicants are seeking to annex the parcels into the City of Hogansville and rezone them to Corridor Medium Residential (CR-MR) to allow for the development of a single-family residential subdivision. The proposed subdivision would be accessed via Bass Cross Road.

At its April meeting, the Troup County Board of Commissioners considered the annexation request and indicated that they do not intend to file an objection.

Subsequently, at its regular meeting on March 20, 2025, the Hogansville Planning and Zoning Board voted to recommend approval of both the annexation and the associated rezoning and map amendment to the City Council.

STAFF RECOMMENDATION (Include possible options for consideration)

Staff recommends that City approve the annexation and rezoning applications as recommended by the Hogansville Planning Commission on March 20, 2025.

Dear Mr. Dixon,

The County acknowledges receipt of the City of Hogansville's Notice of Application for Annexation and Rezoning concerning Parcel Numbers 0280000048C, 0280000048D, 0280000048E, 0280000048F, and 0280000048G (totaling approximately 21.17 acres off Bass Cross Rd.). I understand that the County Manager has already reached out to the City Manager to initiate this discussion.

Each zoning map amendment application, whether submitted by local government or by a party other than local government, shall include with it a complete, written, documented analysis of the impact of the proposed rezoning with respect to each of the following matters:

1. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties.

The proposed use is compatible to the adjacent and nearby properties. The adjacent properties are zoned residential.

2. Whether the zoning proposal would adversely affect the existing use or usability of adjacent or nearby property.

No, as the adjacent or nearby property will be enhanced with a single family residential subdivision.

3. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned.

The property has been undeveloped for many years and combining with the single family houses will allow for additional housing options needed in the City of Hogansville.

4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.

No, the zoning proposal will enhance the community and not be burdensome on the existing streets, transportation facilities, utilities, or schools.

5. Whether the zoning proposal is in conformity with the policy and intent of the comprehensive land use plan.

Since the property is being annexed into the City of Hogansville it is not currently on the comprehensive land use plan. The residential home options will be in conformity with the adjoining property.

6. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

The property adjacent on the West and North was rezoned to allow for residential development and allows for connection of utilities. This would be advantageous to the area.

Appoint Sue Harrell to the Planning Commission

Citizens provide great insight and knowledge to City government. An avenue that the City of Hogansville uses to get this insight is through the City's various boards and commissions. The members of the boards and commissions make decisions and help recommend and review policies for the City of Hogansville and its Mayor and Council. This questionnaire will assist the Mayor and Council in the review process and in determining applicant eligibility requirements and qualifications for board or commission membership.

Questions to consider before applying for membership on a board or commission:

- Do I fully understand what this board or commission expects from me?
- Am I committed to the goals and mission of this board or commission?
- Can I afford the demands on my time, resources, and energy?
- Will I attend meetings regularly, making them a priority for the duration of my appointment?
- Am I willing to perform a reasonable amount of work outside of regularly scheduled board or commission meetings and prepare for each meeting?
- Can I work effectively with the other members of the board or commission?
- Am I willing to participate in necessary board or commission training, education, and development activities that will improve my effectiveness in my position?
